

Opting-In to Additional Constructs

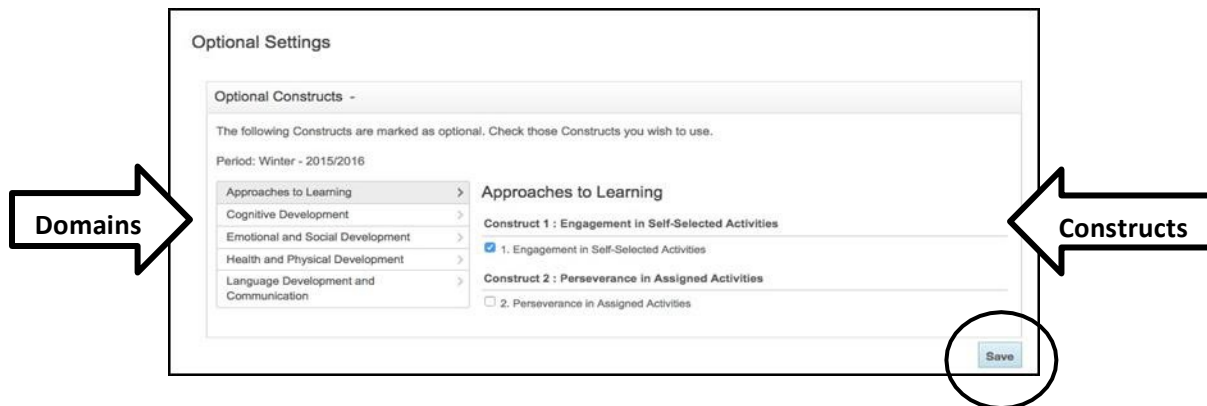

1. Log in to the platform: nc.teachingstrategies.com.
2. Click the **Settings** tab on the left hand side of the screen.

3. Click **Optional Settings** from the list.

4. The list of domains will be displayed on the left of the screen. Click a **domain** to open the list of constructs within that domain. The **constructs** will appear to the right of the domains.

To select one or more constructs, **click the square beside each construct desired**. A check will appear beside the selected constructs. Multiple constructs can be selected from this list.

5. Once the additional constructs for the domain you chose are selected, click the **Save** button.
6. **Repeat steps 4 and 5** to opt-in to additional constructs in other domains.
